

## AMSTERDAM STUDENT RUGBY CLUB ASCRUM IS LOOKING FOR A 2XV / DEVELOPMENT COACH

Amsterdam Student Rugby Club ASCRUM is looking for a new 2XV / Development Coach. ASCRUM is one of the oldest student rugby clubs in the Netherlands, with three senior teams, a veterans team, and over 60 active players. Our first team competes in the second-highest national division, while the second and third teams play in the third and fourth divisions respectively. The second team has the clear ambition to promote to the second division.

The primary responsibilities will include coaching on match days (Sundays). Availability for Thursday evening training sessions is highly desirable. While the main focus will be on the second team, ASCRUM prides itself on being a unified club. Training sessions are therefore often conducted jointly with the first, second, and third teams. In line with this unified approach, all teams aim to play according to the same game plan. As such, the 2XV coach is expected to follow the club's tactical framework and work closely with the first team staff to ensure alignment across all squads.
